

## CLIMBER CHECKLIST

### □ KEEP IT SIMPLE

- A child's imagination is their most important asset.

### □ CLIMBING WITH A PURPOSE

- Reinforce the values of collaboration, team building and building courage & self-esteem.

### □ BE INCLUSIVE

- Design for:
  - Children
  - Adults (Visitors, Maintenance Crews & Emergency Personnel)
  - ADA (visitors with special needs)

### □ BEFORE YOU BUILD A CLIMBER, BUILD THE TEAM

- The Museum (owner)
- The Exhibit Team (Designers & Fabricators / Engineers)
- The Facility Team (Architect, Engineers & General Contractor)
- The City (Building / Permitting Department & Fire Marshal)

### □ THE FACILITY AND CLIMBER ARE ONE

- Design the climber & facility on parallel paths to avoid integration problems.

### □ KNOW YOUR LOADS

- Work with the fabrication structural engineer to develop Live, Dead and Point Loads to give to the Facility Team.

### □ SAFETY IS KEY

- Use Class 1 and A materials.
- The CLIMBER TEAM should develop Operational Guidelines and prepare Safety and Emergency Procedures.

### □ KEEP A CONTINGENCY

- Allow time and money for testing, samples, mock ups and remediation.

### □ CREATE A BIG "WOW"
